## **P R E F A C E**

The present brochure which is eighth in the series presents the estimates of Net State Domestic Product of Himachal Pradesh at current and constant (1970-71) prices for the years 1970-71 to 1979-80 and provides information regarding contribution of various sectors to State's economy. These estimates are based on the standard methodology recommended by the Working Group on State Income for uniform adoption by all the State Statistical Bureaux.

The methodology adopted for working out these estimates and the source material used have been detailed in two previous publications on State Domestic Product of Himachal Pradesh for the years 1973-74 and 1970-71 to 1978-79.

The Department acknowledges with thanks the valuable help and co-operation from a large number of Central and State Government Departments and other non-official agencies. It is hoped that the agencies and research organisations interested in the study of the economy of the Pradesh will find the material presented in this brochure quite useful. Suggestions for improvement are most welcome.
